

WATER MIST

The Water Mist unit uses deionized water and incorporates a unique spray nozzle. These features make it safe for use on energized electrical equipment. Water Mist is considered to be the #1 extinguisher choice for libraries and hospitals.

Water extinguishers are suitable for use on Class A fires. Water Mist is suitable for use on both Class A and Class C fires.

Typical Uses: For common combustible fires in offices, classrooms, churches, parking garages, and hotel/motel assembly halls and guest areas. For common combustible fires in businesses such as retail stores, light manufacturing facilities, research facilities, auto dealerships, vehicle/ aircraft/marine service centers, and manufacturing processes such as painting, dipping, and coating.
